

M.J.,J. Jacobson, University of Calgary, AB, Canada; H.C. Williams, University of Calgary, AB, Canada

Solving the Pell Equation

Pell's Equation is a very simple Diophantine equation that has been known to mathematicians for over 2000 years. Even today research involving this equation continues to be very active, as can be seen by the publication of at least 150 articles related to this equation over the past decade. However, very few modern books have been published on Pell's Equation, and this will be the first to give a historical development of the equation, as well as to develop the necessary tools for solving the equation. The authors provide a friendly introduction for advanced undergraduates to the delights of algebraic number theory via Pell's Equation. The only prerequisites are a basic knowledge of elementary number theory and abstract algebra. There are also numerous references and notes for those who wish to follow up on various topics.... *more on <http://springer.com/978-0-387-84922-5>*

2009. Approx. 520 p. 20 illus. (CMS Books in Mathematics) Hardcover

- ▶ **54,95 €**
- ▶ **\$79.95**
- ▶ **SFr. 91.50**
- ▶ **£43.99**

▶ Describes modern (and surprising) applications to cryptography ▶ Includes the most recent advances, with a deeper approach than any other book ▶ Hugh Williams is Canada's most famous computational number theorist who has published close to 200 articles in top journals ▶ Michael Jacobson is the known expert on subexponential methods, and a former student of Hugh Williams ▶ Both authors are recognized as outstanding expositors

CA, MA, NJ, NY, and PA residents, please add sales tax. Canadian residents, please add 5% GST. Please add \$5.00 for shipping one book and \$1.00 for each additional book. Outside the US and Canada add \$10.00 for first book, \$5.00 for each additional book. All orders are processed upon receipt. If an order cannot be fulfilled within 90 days, payment will be refunded upon request. Prices are payable in US currency or its equivalent. Remember, your 30-day return privilege is always guaranteed. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change.

All € and £ prices are net prices subject to local VAT, e.g. in Germany 7% VAT for books and 19% VAT for electronic products. Pre-publication pricing: Unless otherwise stated, pre-pub prices are valid through the end of the third month following publication, and therefore are subject to change. All prices exclusive of carriage charges. Prices and other details are subject to change without notice. All errors and omissions excepted. Please consult springer.com for information on postage.
