2. **Prerequisites:**

Note: Each prerequisite must have been completed with a grade of C- or better. Students who do not meet the exact prerequisite/corequisite requirements may seek departmental permission to waive those requirements. For each course in which they are registered, students are responsible to ensure that they have all prerequisite requirements or that departmental permission has been obtained. The Faculty of Science policy on pre-requisite checking is outlined on page 203, of the 2009-2010 Calendar. If these conditions are not met, then the student might be deleted from the course at any time.

3. The University policy on grading and related matters is described on pp. 41-47 of the 2009-2010 Calendar. In determining the overall grade in the course, the following weights will be used:

Project	25%
Quizzes	15%
Midterm exam	25%
Final exam	35%

The course **will** have a Registrar's scheduled final examination.

Special regulations affecting the final grade (e.g. requirement to pass the final examination or to pass the laboratory to pass the course): Each of the above components will be given a percentage grade. The final grade will be calculated, using the percentage grades awarded for each component, as a weighted average using weightings listed above. Finally, the overall percentage grade will be converted to a letter grade using the following conversion table:

From	To	Letter
96%	100%	A+
91%	95%	A
86%	90%	A-
81%	85%	B+
76%	80%	B
71%	75%	B-
66%	70%	C+
62%	65%	C

58%	61%	C-
54%	57%	D+
50%	53%	D
0%	49%	F
